January 26, 2004

Dear Colleague:

It is our pleasure to invite you to the 11th Beam Instrumentation Workshop, to be held at the Marriott Knoxville, in Knoxville, Tennessee, May 3–6, 2004. Please join us to discuss recent developments in beam diagnostic instrumentation from a number of international particle accelerator facilities. *Attendance is limited, so please register early.*

This year's program includes: three tutorial sessions, five invited speakers, a presentation by the winner of the Faraday Cup award, many contributed oral papers, poster sessions, vendor displays, discussion groups, and a tour of the Spallation Neutron Source site and other areas at Oak Ridge National Laboratory. A pre-workshop reception will be held on the evening of May 2.

A block of rooms has been reserved at the Marriott Knoxville. The Marriott is located in downtown Knoxville only a few minutes walk to the Tennessee River and historic downtown. Lodging is very limited so it would be wise to make your reservations now.

This is the only general mailing for BIW04. Further information will be sent to registrants, or may be obtained from the conference web page <http://www.sns.gov/biw04>. We look forward to seeing you at BIW04.

Best Regards,

Tom Shea, ORNL/SNS
